The Portes du Soleil offers a real playground as far as the eye can see. The gigantic size of this linked ski area, one of the biggest in the world, just in front of the Dents-du-Midi characterizes our destination. In winter, nature reveals itself in many ways for skiers and snowboarders.

Welcome to the heart of a breathtaking panorama. Here, calm and voluptuousness reign in harmony in a peaceful setting, so close and yet so elusive. No need to try to cling to it. In the Portes du Soleil, we let go. You escape and admire the scale of the show that broke the eyes.

This season marks the 150 anniversary of the alpine tourism in Switzerland. As one of the first tourism resort of the country, Champéry is proud to be part of the celebrations.

SKI IN THE PORTES DU SOLEIL

12 resorts with only 1 pass

The Portes du Soleil ski area will be fully open from the 20th December 2014 to the 19th April 2015.

The international area the Portes du Soleil is a great winter playground, between two countries. The 12 alpine resorts connected between France and Switzerland are 296 slopes accessible with 194 lifts and only one pass. The area allows to discover a magnificent territory without limits.

The best example is located on the oriental hillside of the Pas de Chavanette. There is a track with bumps called Chavanette or the Swiss Wall, famous for being one of the most difficult and fascinating tracks of ski slopes. With a length of 1000 m for 400 m of depth, it is the steepest slope in Switzerland. Only for experienced skiers!

The Portes du Soleil offers visitors a unique ski experience that we call « ski safari » : just click into your bindings at your chalet and go exploring from resort to resort, valley to valley – and even from countrs to country.

Skiers and snowboarders will find what they are looking for in a sumptuous and breath-taking setting.

The Portes du Soleil ski area will be open from December 20th, 2014 to April 19th, 2015.
